Dear <Salutation>,

More and more of our friends and family members are seeking compassionate end-of-life care. In 2012, Mission Hospice & Home Care cared for 40% more patients and families than we did the previous year.

One of our patients, San Carlos resident Michael O'Brien, was diagnosed with colon cancer at age 62. He was shocked – and uninsured. When his doctor told him it was time to consider hospice, Michael remembered the excellent care Mission Hospice had given his father.

“The Mission Hospice team members were some of the most caring and dedicated people I’ve ever come across,” Michael said. And he was comforted and reassured to learn that we would care for him in his final months, free of charge.

Since our founding in 1979, Mission Hospice has been committed to providing quality, compassionate end-of-life care regardless of a patient’s ability to pay. We offer everyone in the San Mateo County area access to the physical, emotional and spiritual support needed to live life to the fullest through their final months – a level of care above and beyond what Medicare reimburses.

This is possible only because of the generosity of our many donors and volunteers like you.

Please make a gift today of \$<Ask1> (or more, if you can) to support patients right here in our community. Your gift of any size will help us continue to provide needed end-of-life care for patients and families.

Thank you again for sharing our commitment to supporting community members like Michael with professional, personalized care, and to offer comfort and dignity when needed most.

Sincerely,

Dwight Wilson
Chief Executive Officer

P.S. You may also consider supporting Mission Hospice as a volunteer, or by making a planned estate gift. You can find out more about both of these opportunities on the enclosed flier.
